Azure Fundamentals (AZ-900)

Explain cloud concepts, core Azure services and Azure governance, aligned to the AZ-900 exam.

DURATION	FORMAT	LEVEL	LABS
16 hours	Onsite, online or hybrid	Foundation	Cloud sandbox included

About this programme

A foundation programme that gives technical and non-technical staff a shared understanding of cloud concepts, Azure architecture and services, and Azure cost management, governance and monitoring tools, with preparation for the AZ-900 Microsoft Azure Fundamentals exam.

Who it is for: Anyone new to Azure: business, sales, project and technical staff

What your team will be able to do

- Explain cloud models, service types and the shared responsibility model
- Describe Azure's core architecture and its compute, networking and storage services
- Describe Azure identity, access and security options
- Use Azure cost management, governance and monitoring tools appropriately
- Prepare for the AZ-900 Microsoft Azure Fundamentals exam

Before you start

- No technical background needed

Course outline

We send the module-by-module outline with your proposal, adapted to your team's tools and goals.

Assessment and certification

How learning is checked

- A short knowledge check on day one and again at the end, so you can see each person's progress
- Graded hands-on labs in every module, reviewed by the trainer
- A final exercise that applies the programme to a problem like your team's own
- A timed practice exam in the format of the real one, with a review of every answer

Certificate and exams

- Participants who complete the programme receive a Cognitive Networks AI certificate of completion.
- Prepares your team for the Microsoft AZ-900 exam. Exam vouchers are not included: each participant books the exam with Microsoft.

Formats and cohort size

- Onsite: At your office or a venue you choose, in full days.
- Online, live: Instructor-led over video, usually in half-day sessions so people can keep up with work.
- Hybrid: Some days in a room together, the rest online. Useful when a team works across cities.

Cohort size: 15 to 25 people per trainer. Larger teams run as parallel cohorts on the same outline, so everyone learns the same thing.

Pricing: We quote per cohort, based on duration, format and number of cohorts. There is no per-seat price list: tell us your team and we send a proposal within one business day.
