Azure Administrator (AZ-104)

Administer Azure identities, governance, storage, compute, networking and monitoring, aligned to AZ-104.

DURATION	FORMAT	LEVEL	LABS
45 hours	Onsite, online or hybrid	Intermediate	Cloud sandbox included

About this programme

A hands-on programme for administrators who run Azure day to day: Microsoft Entra ID and governance, storage, virtual machines and containers, virtual networks, and backup and monitoring, with preparation for the AZ-104 Azure Administrator exam.

Who it is for: System administrators, cloud engineers and IT operations teams

What your team will be able to do

- Manage Entra ID users and groups and Azure role-based access control
- Govern subscriptions with Azure Policy, tags, locks and cost management
- Configure secure storage accounts, Blob Storage and Azure Files
- Deploy and manage VMs, containers and App Service using ARM and Bicep
- Configure virtual networks, and monitor, back up and recover resources

Before you start

- Azure fundamentals (AZ-900 level)
- Windows or Linux administration and networking basics

Course outline

We send the module-by-module outline with your proposal, adapted to your team's tools and goals.

Assessment and certification

How learning is checked

- A short knowledge check on day one and again at the end, so you can see each person's progress
- Graded hands-on labs in every module, reviewed by the trainer
- A final exercise that applies the programme to a problem like your team's own
- A timed practice exam in the format of the real one, with a review of every answer

Certificate and exams

- Participants who complete the programme receive a Cognitive Networks AI certificate of completion.
- Prepares your team for the Microsoft AZ-104 exam. Exam vouchers are not included: each participant books the exam with Microsoft.

Formats and cohort size

- Onsite: At your office or a venue you choose, in full days.
- Online, live: Instructor-led over video, usually in half-day sessions so people can keep up with work.
- Hybrid: Some days in a room together, the rest online. Useful when a team works across cities.

Cohort size: 15 to 25 people per trainer. Larger teams run as parallel cohorts on the same outline, so everyone learns the same thing.

Pricing: We quote per cohort, based on duration, format and number of cohorts. There is no per-seat price list: tell us your team and we send a proposal within one business day.
